Care Management Attestation

Care Manager Attestation

Purpose: To monitor and measure the success of Care Management models and implementations in order to determine their impact on health outcomes and providing cost effective care and to support the development of value added Care Manager trainings.

Data will be used to:

-  Monitor and measure the success of Care Management models.
-  Support payor based incentive programs.
-  Support the development of value added Care Manager trainings.

Data will not be used to:

-  Share staffing and contact information between Provider Organizations and Practices.

Care Manager Attestation Data Collection Tool

While the Web-based solution for collecting Care Manager data is in development, MICMT will continue to collect information using an Excel form. The proposed format and data elements are:

What To Do:

-  Confirm existing data are correct.
-  Make necessary changes.
-  Add new Care Managers.

What Not to Do:

-  Do not delete practices or Care Managers; instead enter an end date.

Practice Data

This form is pre-populated with BCBSM Practice identifiers and related data from the October 2019 Attestation. Provider Organizations will use this form to verify and modify practice level data.

Training Framework

2020 Training

Required Training

All primary care-based care team members new to the role must attend the *Introduction to Team-Based Care* and view the *BCBSM billing webinar*.

The Introduction course covers the critical components of getting started as a care team member.

Continuing (Longitudinal) Education

Every learner has to accomplish (8) credit hours of additional training per year.

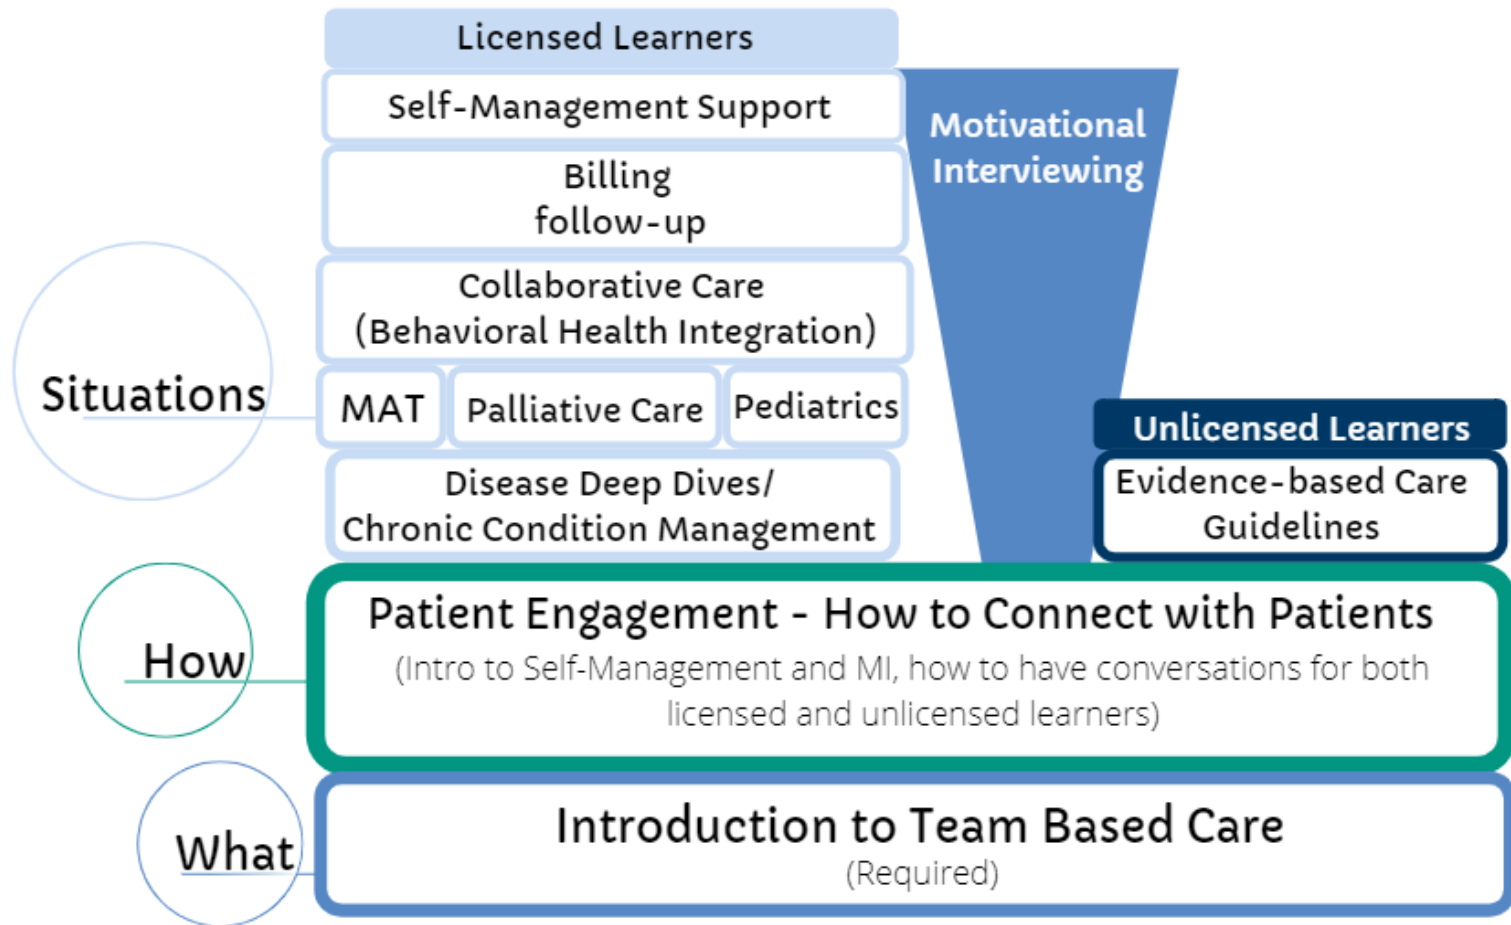

These (8) credits may include:

- Official continuing education credits for their licensure,
- Webinars/ learnings on the MICMT website, and
- All courses offered by approved statewide trainers.

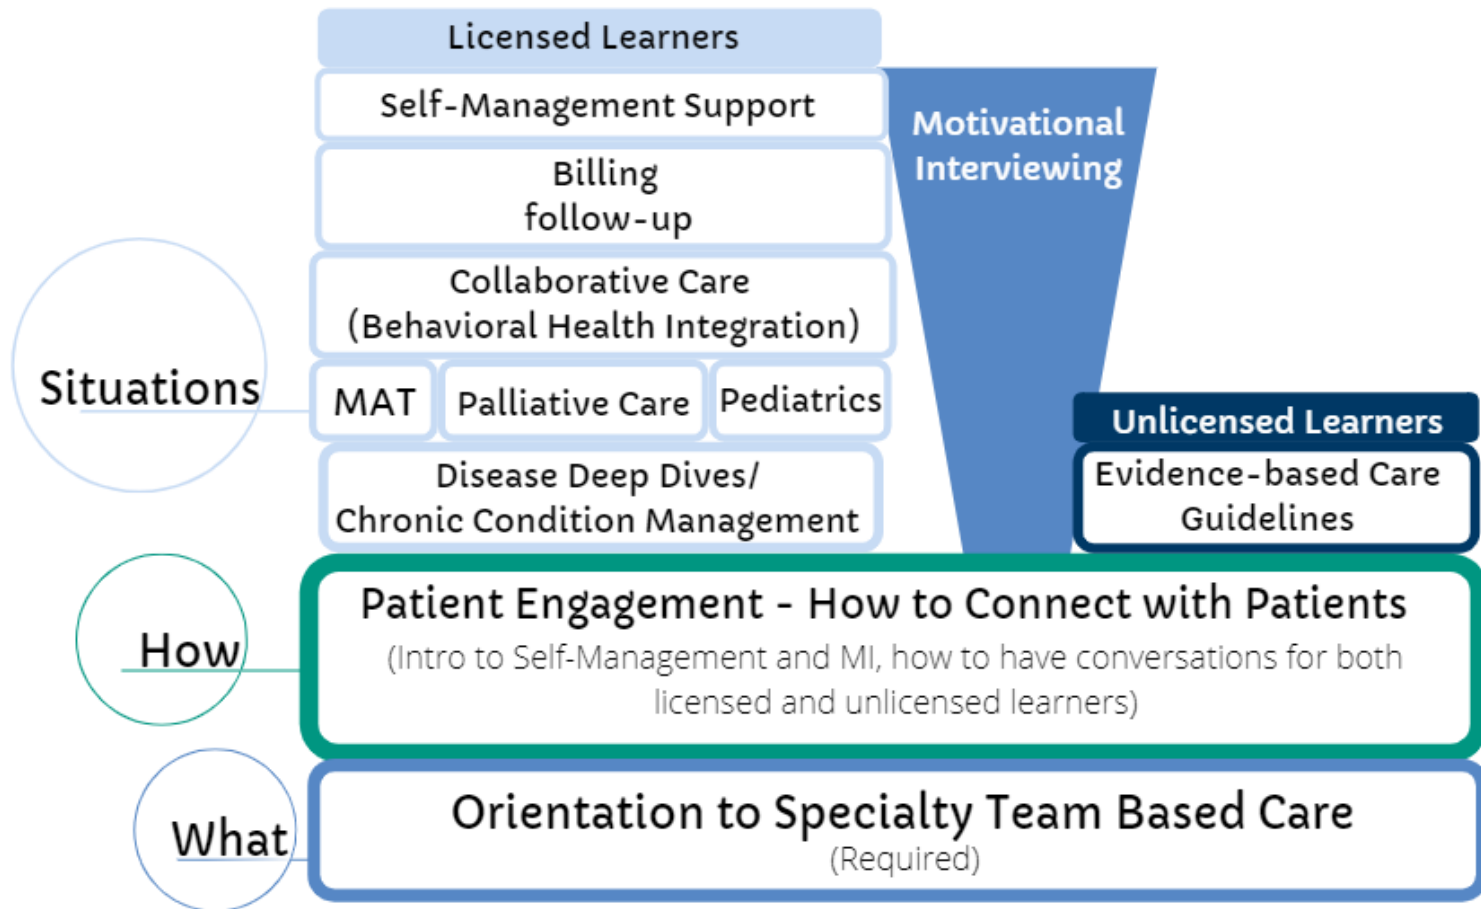

**As we have in the past, MICMT would work with Priority Health and MDHHS to have this course approved for their respective programs. There are other course leads other than MICMT and the current focus is the standardized portion of the course.*
