

2021 Training Framework & Initiatives

2021 BCBSM PDCM Training

Required Training

All care team members new to BCBSM PDCM must attend the *Introduction to Team-Based Care* course and view the *BCBSM billing webinar*.

The course covers the critical components of getting started as a care team member.

Continuing (Longitudinal) Education

Every learner has to accomplish (8) credit hours of additional training per year.

These (8) credits may include:

1. Official continuing education credits for licensure
2. Approved PO-hosted meetings
3. Webinars/learnings on the MICMT website
4. Approved other courses

2021 Specialist Team-Based Care Training

Applies only to those care team members participating in the BCBSM Specialist Team-Based Care VBR Program, which is open to Oncology, Pulmonology, Cardiology, Endocrinology, and Nephrology. Describes the program and strategies for success.

New Care Team Members

All care team members new to the role must attend the *Introduction to Team-Based Care* course and view the [Specialist Team-Based Care recorded webinar](#).

Experienced Care Team Members

Care team members with at least one year of experience in the role should watch the [Specialist Team-Based Care recorded webinar](#).

Continuing (Longitudinal) Education

Every learner has to accomplish (8) credit hours of additional training per year.

These (8) credits may include:

1. Official continuing education credits for licensure
2. Approved PO-hosted meetings
3. Webinars/learnings on the MICMT website
4. Approved other courses

Live Courses

Training provided via state-wide network of approved trainers

Information regarding becoming an approved trainer including the trainer application can be found on the MICMT [website](#).

- Introduction to Team-Based Care
- Patient Engagement
- Introduction to Palliative Care
- Collaborative Care Model*

Upcoming trainings are listed on the MICMT [website](#).

* Attendance restricted to program participants

Introduction to Team Based Care

Training Goal

Describe what care team members new to BCBSM PDCM need to know. A general orientation to the team-based care model, care management roles, billing basics and outcomes.

Longitudinal Credits

8

Training Reimbursement

\$500

Patient Engagement

Training Goal

Describe how care team members can use evidence-based motivational interviewing and self-management support skills to engage with patients.

Longitudinal Credits

8

Training Reimbursement

\$500

Introduction to Palliative Care

Training Goal

Describe palliative care concepts to empower multidisciplinary teams and generalists to provide palliative care support for their patient.

Longitudinal Credits

4

Training Reimbursement

\$250

Collaborative Care Model

- Trainings are limited to those participating in the BCBSM Psychiatric Consult Collaborative Care Management Model (CoCM)
- Two partners—[MCCIST](#) and [MI-CCSI](#)—conduct all of the training
 - POs are assigned to one of the training partners
 - PO training partner assignments are available on the MICMT [website](#)

Approval Process Other Courses

Process for External Course Approval for Reimbursement and/or Learning Credit

PO representative fills out the survey describing the course

https://umichumhs.qualtrics.com/jfe/form/SV_5zhliGD7AynaTlh

MICMT communicates whether or not the course is approved and creates a page on the website for confirmation and course evaluation.

PO representative confirms participation of care team members with MICMT via website, and care team members complete the evaluation.*

Information regarding trainings approved for reimbursement, can be found [here](#).

* If approved for reimbursement, this confirmation & evaluation assures that the course will be counted for reimbursement (up to the training reimbursement cap).
