12:20 PM - 12:30 PM	Conclusion and Evaluation

Collaborative Care Model: Adolescent Training for Physicians and Psychiatric Consultants is built upon the content provided in the foundational training: Collaborative Care Model: Base Training for Physicians and Psychiatric Consultants. The training is intended to help the physicians, psychiatric consultants, behavioral health care managers, and practice team members gain the foundational knowledge and skills for implementing the Collaborative Care Model with an adolescent population. After completing this activity, participants will be able to apply the Collaborative Care Model with the adolescent population, focusing on patient caseload, suicide assessment, and treatment of depression and anxiety.

Target Audience: Physicians, Social Workers, Nurses, Administrators - Primary care Physicians and Psychiatric Consultant physicians participating in CoCM and members of the primary care practice team.

Planners: Edward Deneke

Co-Planners: Lindsay West, Marie Beisel

The University of Michigan Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Michigan Medical School designates this live activity for a maximum of 3.5 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
