

SBAR – Your Turn!

Activity 6

Scenario:

28-year-old pregnant (32 weeks) female recently moved to Ypsilanti, MI from Flint to share an apartment with her sister and her 2 children. The patient has not set up OB care yet. She has just run out of her Lisinopril to control her blood pressure. She needs an appointment as well as medications to cover her until she can be seen. She has no means of transportation.

- **Situation** – What is the concern?
A very clear, succinct overview of pertinent issue.
- **Background** – What has occurred?
Important, brief information relating to event. What got us to this point?
- **Assessment/Analysis** – What do you think is going on?
Summarize the facts and give your best judgement.
- **Recommendation** – What do you recommend?
What actions do you want?
